

WHAT IS CO-WORKING?

The Spirit Of Coworking Allows You To Find Coworkers Whom Are Worth Working With

Working side by side, in the midst of community.
A shared office space for freelancers in Foot of Darjeeling Hills, Siliguri.
SolutionsMax

We've a dream to created a place where anyone who would normally work from home or a coffee shop can work alongside one another in a quiet, focused, communal environment in the SolutionsMax Siliguri, India neighborhood of Nepal, China, and Bhutan.

This is a space for anyone, of any or no faith, looking for a more spiritually connected way to live and work.

Why work here instead of at home?

A Beautiful, Quiet Space
We've got a comfortable, light-filled workspace with a nice big kitchen, lots of outlets and really good wifi, perfect for being very productive.

WHAT YOU'LL FIND INSIDE:

- **AMAZING COWORKERS**
- **FREELANCERS**

Better Than a Coffee Shop

When you work at a coffee shop, you have to take your stuff with you every time you run out for an errand. The Wi-Fi is spotty, and you have to keep buying coffee! As a co-worker, you can leave your stuff here when you run out, trust that the Wi-Fi will always be running, print and photocopy, and make your own coffee whenever you want. Plus, you're connecting each day to a group of motivated co-workers.

Spiritually Grounded and Connected

As we grow, we're building a networked community of freelancers with opportunities for afternoon yoga breaks, silent meditation, workshops for sharing ideas, CSA pickups, and whatever else you can think of!

Coffee, Tea, Free Lunch and Cookie Thursday!

We offer free coffee and tea, and a big kitchen where you can make your lunch. On Wednesdays, whoever wants to shares a yummy meal provided by Sibu Tudu. That, plus warm cookies every Thursday afternoon makes for a pretty pleasant work environment.

It's Close to Everything

We're located in Milanmore, close to restaurants. There are plenty of restaurants nearby, and we're a short walk from the Prakriti Mall and Chinese restaurant.

Some of the Cheapest Co-working in India

We've done our best to make co-working accessible to the widest range of income levels possible.

We're flexible

You can split up the hours on your membership any way you like. Work an afternoon and a morning, or shift your hours around if you go out of town. It's all honor system. We trust you.

Frequently Asked Questions

Can I have a full-time desk at SolutionsMax, where I keep all my stuff?

Sadly, no. Our co-working space is a day-time space, where you can come to work during the day, bringing what you need with you. We don't offer offices, cubicles, or full-time desks. However, if you have a need to store a limited amount of stuff, we can add a storage basket or bin to your plan.

Is there a photocopier and printer I can use?

Yes! You're welcome to make use of ours.

Can I make phone calls or have colleagues come by for conversations?

Sure. We ask for co-workers to simply keep their voice low when they're on the phone. There will be two curtained areas for a little more privacy on a phone call. And you're welcome to have colleagues come by to work with you on a limited basis. If they'll be here often, you might consider a part-time membership for them.

How does access to the space work?

You'll be given an access code so that you can key into the building between 8:00 am and 6:30 pm each day. One of the ways we keep the space cheap is by not having a receptionist, so you're free to come and go as you please. Evening events at SolutionsMax may begin setting up at 6:00 or so, and co-workers are invited to stay in the space until 6:30.

Do you rent your space?

Yes, contact us for more information. We also partner with selected not-for-profits and arts organizations.
